

HI, MY NAME IS GREIGHSON

Age: 10

Motto: "Heart Strings Attached"

Diagnosis: Eagle Barrett Syndrome

Greighson is an incredible champion! He was adopted from Bulgaria. Over the years, he has experienced a variety of medical conditions including prune belly disease, double kidney failure, heart murmur, and pexric excavatum. Given his hyper-elastic joints, he wears orthotics.

Greighson had a kidney transplant November 2021.

Greighson loves superheroes! He can be shy, witty and inquisitive, and he embraces new situations.
